

(1) session title,

New Challenges by Students and Young Engineers in Mechatronics

(2) session description,

This special session offers opportunities to academic students and young industrial engineers in mechatronics field to present their works in progress and to discuss together about future development. The topics of interest do not have any limitations, if the contents are related to mechatronics.

(3) session organizer(s) (name, affiliation, contact information),

Tomoyuki Shimono, Yokohama National University
shimono-tomoyuki-hc@ynu.ac.jp

Takahiro Nozaki, Keio University
